2019
A YEAR IN REVIEW

ANNUAL REPORT
About Us

The Idaho Society of Clinical Oncology (ISCO) represents Idaho physicians and related health care professionals who care for cancer patients. The Society is a non-profit corporation devoted to the improvement of hematologic and oncologic care of patients.

isco Goals

- Represent oncology professionals with a unified voice to advance cancer care in the state
- Facilitate the delivery of oncology services and improve access to expert local resources
- Increase networking opportunities and develop relationships with local oncology professionals
- Provide educational content and a venue for exchanging information

- Jack's Classic Golf Tournament (sponsor)
  Date: July 20-21, 2019

- ACS-CAN Policy Breakfast (sponsor)
  Date: September 24, 2019

- ISCO Annual Meeting
  Date: November 1-2, 2019

ISCO Community Program Grant

This year, the Idaho Society of Clinical Oncology unveiled a new community grant program for Idaho-based organizations benefiting cancer patients. ISCO’s Board of Directors will consider funding for a variety of programs that meet ISCO’s mission of improving hematologic and oncologic care of patients in Idaho.

The program’s primary mission must be to assist cancer patients and/or their families. Programs must benefit Idaho residents, but can benefit out-of-state residents in addition. Grant awards are modest and must not exceed 20% of a program’s budget. Grants are reviewed and awarded on a rolling basis and funding recommendations are made by ISCO’s Board of Directors.
